

ASSIGNMENT-6THNOV 2024

Write a c program to compute the total distance between A and C ,B is a point somewhere between A and C .Distance AB=60,Distance BC=140.

```
#include <stdio.h>
```

```
int main()
```

```
{
```

```
    int ab=60,bc=140;
```

```
    int ac=ab+bc;
```

```
    printf("total distance is : %d",ac);
```

```
}
```
